## Consider Fixing:

### Leverage browser caching

Setting an expiry date or a maximum age in the HTTP headers for static resources instructs the browser to load previously downloaded resources from local disk rather than over the network.

[Leverage browser caching](#) for the following cacheable resources:

- <https://www.meteocontrol.in/img/Erfahrung.svg> (expiration not specified)
- <https://www.meteocontrol.in/img/PV.svg> (expiration not specified)
- [https://www.meteocontrol.in/img/arrow-right\\_dark.svg](https://www.meteocontrol.in/img/arrow-right_dark.svg) (expiration not specified)

### Minify CSS

Compacting CSS code can save many bytes of data and speed up download and parse times.

[Minify CSS](#) for the following resources to reduce their size by 2.2KiB (12% reduction).

- Minifying <https://www.meteocontrol.in/css/main.1531301276.css> could save 2.2KiB (12% reduction) after compression.

### Minify HTML

Compacting HTML code, including any inline JavaScript and CSS contained in it, can save many bytes of data and speed up download and parse times.

[Minify HTML](#) for the following resources to reduce their size by 864B (12% reduction).

- Minifying <https://www.meteocontrol.in/> could save 864B (12% reduction) after compression.

### Minify JavaScript

Compacting JavaScript code can save many bytes of data and speed up downloading, parsing, and execution time.

[Minify JavaScript](#) for the following resources to reduce their size by 62.5KiB (42% reduction).

- Minifying <https://www.meteocontrol.in/js/bundle.1531408806.js> could save 62.5KiB (42% reduction) after compression.

### Eliminate render-blocking JavaScript and CSS in above-the-fold content

Your page has 1 blocking CSS resources. This causes a delay in rendering your page.

None of the above-the-fold content on your page could be rendered without waiting for the following resources to load. Try to defer or asynchronously load blocking resources, or inline the critical portions of those resources directly in the HTML.

[Optimize CSS Delivery](#) of the following:
