How much is a McAfee subscription?

McAfee has introduced the latest edition of its widespread application on mcafee.com/activate. Every three years, there's a new variant with an upgraded user interface, a couple of new capabilities and functions, and a significant hassle needing to update many computers. But, McAfee has made a substantial shift to their tried and true formula. McAfee provides its monthly subscribers with a superb deal to proceed to their pricing model, correct? Well, let's take a look at the pricing, and see for ourselves, which is the best way to purchase McAfee. McAfee Security Delux is \$59.99 yearly or \$5.99 per month. McAfee Professional 2020 is \$79.99.

Buy McAfee without a subscription

Within the subscription period of McAfee at mcafee.com/activate, you are going to wind up paying over \$60 monthly subscription. The only advantage of moving with the subscription-based model is that it permits you [pagepeeker](#) modification on more than one computer simultaneously. But to me personally, and I guess this is not worth the extra price.
