⚠️ Consider Fixing:

Size content to viewport

The page content is too wide for the viewport, forcing the user to scroll horizontally. [Size the page content to the viewport](#) to provide a better user experience.

The page content is 415 CSS pixels wide, but the viewport is only 411 CSS pixels wide. The following elements fall outside the viewport:

- The element <div class="toggle-button-wrapper">President U.S....nors Trifectas</div> falls outside the viewport.

Size tap targets appropriately

Some of the links/buttons on your webpage may be too small for a user to easily tap on a touchscreen. Consider [making these tap targets larger](#) to provide a better user experience.

The following tap targets are close to other nearby tap targets and may need additional spacing around them.

- The tap target Michigan elections, 2016 and 1 others are close to other tap targets.

- The tap target <path class="geo region-outline"> and 47 others are close to other tap targets.
