Should Fix:

Avoid landing page redirects

Your page has 5 redirects. Redirects introduce additional delays before the page can be loaded.

[Avoid landing page redirects](#) for the following chain of redirected URLs.

- <http://numbertocontact.com/>
- <http://numbertocontact.com/VLhdZ/>
- <http://numbertocontact.com/RfaZZ/VLhdZ/>
- <http://numbertocontact.com/NaQhZ/VLhdZ/>
- <http://numbertocontact.com/NSYMZ/NaQhZ/VLhdZ/>
- <http://numbertocontact.com/LknhZ/NSYMZ/NaQhZ/VLhdZ/>

Consider Fixing:

Leverage browser caching

Setting an expiry date or a maximum age in the HTTP headers for static resources instructs the browser to load previously downloaded resources from local disk rather than over the network.

[Leverage browser caching](#) for the following cacheable resources:

- <http://www.google.com/adsense/domains/caf.js> (60 minutes)
- <https://www.google.com/adsense/domains/caf.js> (60 minutes)

Minify HTML

Compacting HTML code, including any inline JavaScript and CSS contained in it, can save many bytes of data and speed up download and parse times.

[Minify HTML](#) for the following resources to reduce their size by 754B (14% reduction).

- Minifying <http://parked-content.godaddy.com/park/LJu6o3WyM2WjLzSaaOaYaOvrt==> could save 754B (14% reduction) after compression.

7 Passed Rules

Enable compression

You have compression enabled. Learn more about [enabling compression](#).

Mobile

Reduce server response time

Your server responded quickly. Learn more about [server response time optimization](#).

Minify CSS

Your CSS is minified. Learn more about [minifying CSS](#).

Minify JavaScript

Your JavaScript content is minified. Learn more about [minifying JavaScript](#).

Eliminate render-blocking JavaScript and CSS in above-the-fold content

You have no render-blocking resources. Learn more about [removing render-blocking resources](#).

Optimize images

Your images are optimized. Learn more about [optimizing images](#).

Prioritize visible content

You have the above-the-fold content properly prioritized. Learn more about [prioritizing visible content](#).

 5 Passed Rules

Avoid plugins

Mobile

Your page does not appear to use plugins, which would prevent content from being usable on many platforms. Learn more about the importance of [avoiding plugins](#).

Configure the viewport

Your page specifies a viewport matching the device's size, which allows it to render properly on all devices. Learn more about [configuring viewports](#).

Size content to viewport

The contents of your page fit within the viewport. Learn more about [sizing content to the viewport](#).

Size tap targets appropriately

All of your page's links/buttons are large enough for a user to easily tap on a touchscreen. Learn more about [sizing tap targets appropriately](#).

Use legible font sizes

The text on your page is legible. Learn more about [using legible font sizes](#).
