! Should Fix:

Eliminate render-blocking JavaScript and CSS in above-the-fold content

Your page has 6 blocking script resources and 2 blocking CSS resources. This causes a delay in rendering your page.

None of the above-the-fold content on your page could be rendered without waiting for the following resources to load. Try to defer or asynchronously load blocking resources, or inline the critical portions of those resources directly in the HTML.

[Remove render-blocking JavaScript:](#)

- <http://cdn.online-convert.com/js/jquery-208.js>
- <http://cdn.online-convert.com/js/general-208.js>
- <http://cdn.online-convert.com/js/resumable-208.js>
- <http://cdn.online-convert.com/js/resumable-uploader-208.js>

Mobile

- <http://cdn.online-convert.com/js/jquery-fileupload-208.js>
- <http://cdn.online-convert.com/js/jquery-iframe-transport-208.js>

[Optimize CSS Delivery](#) of the following:

- <http://cdn.online-convert.com/css/main-228.css>
- <http://cdn.online-convert.com/css/media-228.css>

Consider Fixing:

Enable compression

Compressing resources with gzip or deflate can reduce the number of bytes sent over the network.

[Enable compression](#) for the following resources to reduce their transfer size by 2.8KiB (65% reduction).

- Compressing <https://platform.twitter.com/js/button.09a4c69b9e9879b3a066b7ecd72136d2.js> could save 2.8KiB (65% reduction).

Leverage browser caching

Setting an expiry date or a maximum age in the HTTP headers for static resources instructs the browser to load previously downloaded resources from local disk rather than over the network.

[Leverage browser caching](#) for the following cacheable resources:

- http://connect.facebook.net/en_US/all.js (20 minutes)
- <http://platform.twitter.com/widgets.js> (30 minutes)
- <https://apis.google.com/js/plusone.js?onload=onLoadCallback> (30 minutes)
- https://apis.google.com/js/rpc:shindig_random.js?onload=init (30 minutes)

Mobile

- <http://www.google-analytics.com/ga.js> (2 hours)

Minify HTML

Compacting HTML code, including any inline JavaScript and CSS contained in it, can save many bytes of data and speed up download and parse times.

[Minify HTML](#) for the following resources to reduce their size by 1.6KiB (20% reduction).

- Minifying <http://www.online-convert.com/> could save 1.6KiB (20% reduction) after compression.

6 Passed Rules

Avoid landing page redirects

Your page has no redirects. Learn more about [avoiding landing page redirects](#).

Reduce server response time

Your server responded quickly. Learn more about [server response time optimization](#).

Minify CSS

Your CSS is minified. Learn more about [minifying CSS](#).

Minify JavaScript

Your JavaScript content is minified. Learn more about [minifying JavaScript](#).

Optimize images

Your images are optimized. Learn more about [optimizing images](#).

Prioritize visible content

You have the above-the-fold content properly prioritized. Learn more about [prioritizing visible content](#).

94 / 100 User Experience

Consider Fixing:

Size tap targets appropriately

Some of the links/buttons on your webpage may be too small for a user to easily tap on a touchscreen. Consider [making these tap targets larger](#) to provide a better user experience.

The following tap targets are close to other nearby tap targets and may need additional spacing around them.

- The tap target `<input type="submit">` is close to 1 other tap targets final.
- The tap target `<form id="u_0_1">Like76K</form>` is close to 1 other tap targets.
- The tap target `<button id="u_0_3" type="submit" class="inlineBlock_2tga_49ve">Like76K</button>` and 2 others are close to other tap targets.
- The tap target `Tweet` is close to 2 other tap targets.
- The tap target `inShare` is close to 1 other tap targets.
- The tap target `inShare` is close to 1 other tap targets.
- The tap target `<div id="plusone" class="Jg">8.4k</div>` is close to 2 other tap targets.
- The tap target `<div id="plusone" class="Jg">8.4k</div>` is close to 2 other tap targets.

Mobile

- The tap target `` is close to 2 other tap targets.
- The tap target `` is close to 1 other tap targets.
- The tap target `Convert your documents to DOCX` and 15 others are close to other tap targets.
