 Should Fix:

Leverage browser caching

Setting an expiry date or a maximum age in the HTTP headers for static resources instructs the browser to load previously downloaded resources from local disk rather than over the network.

[Leverage browser caching](#) for the following cacheable resources:

- <https://quick-customer-service.com/assets/color/default.css> (expiration not specified)
- <https://quick-customer-service.com/assets/css/bootstrap-responsive.css> (expiration not specified)
- <https://quick-customer-service.com/assets/css/bootstrap.css> (expiration not specified)
- <https://quick-customer-service.com/assets/css/docs.css> (expiration not specified)
- <https://quick-customer-service.com/assets/css/flexslider.css> (expiration not specified)
- <https://quick-customer-service.com/assets/css/font-awesome.css> (expiration not specified)

Mobile

- <https://quick-customer-service.com/assets/css/overwrite.css> (expiration not specified)
- <https://quick-customer-service.com/assets/css/sequence.css> (expiration not specified)
- <https://quick-customer-service.com/assets/css/style.css> (expiration not specified)
- <https://quick-customer-service.com/assets/img/head-shadow.png> (expiration not specified)
- <https://quick-customer-service.com/assets/js/application.js> (expiration not specified)
- <https://quick-customer-service.com/assets/js/bootstrap.js> (expiration not specified)
- <https://quick-customer-service.com/assets/js/custom.js> (expiration not specified)

Eliminate render-blocking JavaScript and CSS in above-the-fold content

Your page has 10 blocking CSS resources. This causes a delay in rendering your page.

None of the above-the-fold content on your page could be rendered without waiting for the following resources to load. Try to defer or asynchronously load blocking resources, or inline the critical portions of those resources directly in the HTML.

[Optimize CSS Delivery](#) of the following:

- <https://fonts.googleapis.com/css?family=Open+Sans:400italic,400,600,700>

Mobile

- <https://quick-customer-service.com/assets/css/bootstrap.css>
- <https://quick-customer-service.com/assets/css/bootstrap-responsive.css>
- <https://quick-customer-service.com/assets/css/docs.css>
- <https://quick-customer-service.com/assets/css/flexslider.css>
- <https://quick-customer-service.com/assets/css/sequence.css>
- <https://quick-customer-service.com/assets/css/style.css>
- <https://quick-customer-service.com/assets/css/font-awesome.css>
- <https://quick-customer-service.com/assets/css/overwrite.css>
- <https://quick-customer-service.com/assets/color/default.css>

Consider Fixing:

Minify CSS

Compacting CSS code can save many bytes of data and speed up download and parse times.

[Minify CSS](#) for the following resources to reduce their size by 4.8KiB (21% reduction).

- Minifying <https://quick-customer-service.com/assets/css/style.css> could save 1.1KiB (18% reduction) after compression.
- Minifying <https://quick-customer-service.com/assets/css/font-awesome.css> could save 1.1KiB (27% reduction) after compression.
- Minifying <https://quick-customer-service.com/assets/css/docs.css> could save 1.1KiB (32% reduction) after compression.
- Minifying <https://quick-customer-service.com/assets/css/overwrite.css> could save 606B (11% reduction) after compression.
- Minifying <https://quick-customer-service.com/assets/css/flexslider.css> could save 470B (33% reduction) after compression.
- Minifying <https://quick-customer-service.com/assets/css/sequence.css> could save 250B (20% reduction) after compression.
- Minifying <https://quick-customer-service.com/assets/color/default.css> could save 234B (20%

Mobile

reduction) after compression.

Minify JavaScript

Compacting JavaScript code can save many bytes of data and speed up downloading, parsing, and execution time.

[Minify JavaScript](#) for the following resources to reduce their size by 8.5KiB (33% reduction).

- Minifying <https://quick-customer-service.com/assets/js/jquery.flexslider.js> could save 3.2KiB (37% reduction) after compression.
- Minifying <https://quick-customer-service.com/assets/js/bootstrap.js> could save 2.7KiB (26% reduction) after compression.
- Minifying <https://quick-customer-service.com/assets/js/jquery.easing.js> could save 1.1KiB (58% reduction) after compression.
- Minifying <https://quick-customer-service.com/assets/js/hover/jquery-hover-effect.js> could save 554B (37% reduction) after compression.
- Minifying <https://quick-customer-service.com/assets/js/application.js> could save 432B (29% reduction) after compression.
- Minifying <https://quick-customer-service.com/assets/js/custom.js> could save 405B (22% reduction) after compression.

Optimize images

Properly formatting and compressing images can save many bytes of data.

[Optimize the following images](#) to reduce their size by 3.4KiB (43% reduction).

- Compressing <https://quick-customer-service.com/assets/img/head-shadow.png> could save 2.2KiB (60% reduction).
- Compressing <https://quick-customer-service.com/images/logo.png> could save 1.2KiB (28% reduction).
